This report was prepared by the EMPS Crisis Intervention Services Performance Improvement Center (PIC):
Jeffrey Vanderploeg, Ph.D., Director; Eva C. Haldane, LMSW, Data Analyst; Adora Harizaj, BS, Project Coordinator; Yecenia Casiano, MS, Project Coordinator; Lori Schon, Office Manager; Sarah Mucci, LCSW, United Way of CT-211

The Mobile Crisis Intervention Services Performance Improvement Center is housed at the
Child Health and Development Institute
Executive Summary

Additional data and appendices are available online http://www.chdi.org/publications/ or contact Jeffrey Vanderploeg, PhD, jvanderploeg@uchc.edu for more information.

Call and Episode Volume: In February 2017, 211 and Mobile Crisis received 1,402 calls including 1,036 calls (73.9%) handled by Mobile Crisis providers and 366 calls (26.1%) handled by 211 (e.g., calls for other information or resources, calls transferred to 911). This month represents a 9.1% decrease in call volume compared with February 2016 (n=1,542).

Among the 1,034 episodes of care generated this month, episode volume ranged from 143 episodes (New Haven service area) to 268 episodes (Hartford service area). The statewide average service reach per 1,000 children this month was 1.27, with service area rates ranging from 0.89 (Southwestern) to 1.70 (Hartford) relative to their specific child populations. Additionally, the number of episodes generated relative to the number of children in poverty in each service area yielded a statewide average poverty service reach rate of 2.37 per 1,000 children in poverty, with service area rates ranging from 1.61 (Southwestern) to 3.93 (Eastern).

Mobility: Statewide mobility was 93.6% this month, 0.8% lower than in February 2016. All six service areas were above the 90% benchmark this month, with performance ranging from 90.2% (Central) to 95.5% (Eastern). Mobility for individual providers ranged from 89% (CHR-EMPS) to 100% (Well-EMPS:Dnby). Thirteen of the fourteen individual providers had mobility rates at or above the 90% benchmark.

Response Time: Statewide, this month 88% of mobile episodes received a face-to-face response in 45 minutes or less, which is slightly slower than February 2016 (91%). Five of the six service areas were above the 80% benchmark this month, with performance ranging from 78% (Central) to 93% (Southwestern). In addition, the statewide median mobile response time was 29 minutes. Ten sites met the benchmark of at least 80% of mobile responses provided in 45 minutes or less.

Length of Stay (LOS): Statewide, among discharged episodes, there were 25 (9.1%) plus stabilization follow-up episodes exceeding 45 days. This month the statewide median LOS for discharged episodes with a crisis response of plus stabilization follow-up was 18.5 days. The median LOS for discharged episodes with a crisis response of plus stabilization follow-up ranged from 14.5 days (Central) to 24.0 days (New Haven).
