This report was prepared by the EMPS Crisis Intervention Services Performance Improvement Center (PIC):
Eva C. Haldane, Ph.D., Data Analyst; Yecenia Casiano, MS, Project Coordinator; Jeana Bracey, Ph.D., Director;
Carrie Shaw, Administrative Assistant; Jill Perreault, MS, Training Support Specialist (Wheeler Clinic); Sarah
Camerota, LICSW, United Way of CT-211; Jeffrey Vanderploeg, Ph.D., CEO

The Mobile Crisis Crisis Intervention Services Performance Improvement Center is housed at the Child Health and Development Institute
Executive Summary

Additional data and appendices are available online http://www.chdi.org/publications/ or contact Yecenia Casiano, MS, casiano@uchc.edu for more information.

Special note regarding this monthly report: Due to issues with the PIE server, number of calls and episodes may not be accurate. When the issues are resolved, the findings of this report will be verified and an updated version may be uploaded.

Call and Episode Volume: In June 2018, 211 and Mobile Crisis received 1,459 calls including 1,033 calls (70.8%) handled by Mobile Crisis providers and 426 calls (29.2%) handled by 211 (e.g., calls for other information or resources, calls transferred to 911). This month represents a 6.7% increase in call volume compared with June 2017 (n=1,367).

Among the 1,033 episodes of care generated this month, episode volume ranged from 135 episodes (Eastern service area) to 247 episodes (Hartford service area). The statewide average service reach per 1,000 children this month was 1.27, with service area rates ranging from 0.88 (Southwestern) to 1.56 (Hartford) relative to their specific child populations. Additionally, the number of episodes generated relative to the number of children in poverty in each service area yielded a statewide average poverty service reach rate of 2.32 per 1,000 children in poverty, with service area rates ranging from 1.51 (New Haven) to 3.26 (Eastern).

Mobility: Statewide mobility was 90.6% this month, 1.4% lower than in June 2017. Three of the six service areas were above the 90% benchmark this month, with performance ranging from 83.9% (Southwestern) to 96.4% (Western). Mobility for individual providers ranged from 77% (CFGC-EMPS:Nrwlk) to 100% (Wheeler-EMPS:Meridn). Seven of the fourteen individual providers had mobility rates at or above the 90% benchmark.

Response Time: Statewide, this month 86% of mobile episodes received a face-to-face response in 45 minutes or less, which is lower than June 2017 (90%). Five of the six service areas were above the 80% benchmark this month, with performance ranging from 73% (Western) to 92% (Southwestern). Twelve of the fourteen sites met the benchmark of at least 80% of mobile responses provided in 45 minutes or less. In addition, the statewide median mobile response time was 30 minutes.

Length of Stay (LOS): Statewide, among discharged episodes, there were 40 (10.1%) plus stabilization follow-up episodes exceeding 45 days. This month the statewide median LOS for discharged episodes with a crisis response of plus stabilization follow-up was 19.0 days. The median LOS for discharged episodes with a crisis response of plus stabilization follow-up ranged from 15.0 days (Western) to 28.0 days (Central).
